**Introduction :**

In the introduction speech Prof.T. B. Dhurandhar sir said the purpose of organizing the said workshop that to spread awareness about new education policy 2020 among the students.

**Workshop Facilitator – Hon.Prof.Dr. Surajprasad S.Shukla,**

A New Education Policy is starting from 2024 in Maharashtra. It will have holistic and multidisciplinary education. By 2030 “Enhancing inclusive and equal quality education for students Promoting lifelong learning opportunities for students”. With the quickly changing employment landscape and global ecosystem, it is becoming increasingly critical that children not only learn, but more importantly learn how to learn. Education thus, must move towards less content, and more towards learning about how to think critically and solve problems, how to be creative and multidisciplinary, and how to innovate, adapt, and absorb new material in novel and changing fields. Pedagogy must evolve to make education more experiential.

holistic, integrated, inquiry-driven, discovery-oriented, learner-centred, discussion-based, flexible, and, of course, enjoyable. The curriculum must include basic arts, crafts, humanities, games, sports and fitness, languages, literature, culture, and values, in addition to science and mathematics, to develop all aspects and capabilities of learners; and make education more well-rounded, useful, and fulfilling to the learner. Education must build character, enable learners to be ethical, rational, compassionate, and caring, while at the same time prepare them for gainful, fulfilling employment.

**Presidential Address - Prof. Dr. Rajendrasingh W.Dixit**

The Policy envisages that the curriculum and pedagogy of our institutions must develop among the students a deep sense of respect towards the Fundamental Duties and Constitutional values, bonding with one's country, and a conscious awareness of one's roles and responsibilities in a changing world. Students are the prime stakeholders in the education system. Vibrant campus life is essential for high-quality teaching-learning processes. Reforms in the school exam recommended by the NEP include tracking the progress of the students throughout their school experience.
